# VAGES HISTORY

2004 - 2012

vages Club's identity was founded in 2004 as a brand highlighting its influence in casino industry. The company originally started positioning itself as a “Las vages” styled casino. Hence, the very first logo was very much inspired by the popular casino signboard in the 90s in Las vages.

2013

At that time, players in Vietnam did not have full trust in casino fairness and transparency. Therefore, vages Club insisted on the significant change of the logo to convey the sense of trustworthiness, aspiration and luxury as the company continued to grow and aimed to become the most desired and professional e-gaming club in Vietnam. 2 of vages Club, as we celebrate 20 years of operating in the e-gaming industry
